Consumer Behavioural Analysis

This survey is part of an independent research project exploring the relationship between ethical marketing practices and consumer decision-making. It aims to understand how factors such as ethical business practices, transparency, trust, price, and convenience influence consumers' purchasing intentions and behaviour.

The survey will take approximately **3–5 minutes** to complete. There are no right or wrong answers, so please answer based on your genuine opinions and purchasing experiences.

Your responses will be used **for academic and research purposes only** and will be analyzed in aggregate. Individual responses will not be publicly identified.

Thank you for taking the time to participate!
